1 Type A: Answering Questions

This document records the first actual model input produced by the benchmark input browser for every Type A benchmark. Each image is the exact RGB image passed to the model, and each prompt is the exact corresponding text prompt.

1.1 FlyingThings3D

Source: `ssbai/flyingthings3d`, split: train, input dimensions: 1920×564 .

Figure 1: First FlyingThings3D benchmark input. The left and right clean-pass RGB frames are presented as a labeled stereo pair.

```
